2 Record

Page ID: 1078 · **Title:** Press Articles Index — every newspaper cutting and press extract, one page each · **Evidence status:** Not yet labelled — see the Editing Protocol · **Version:** 1.0.0 · [Editing Protocol](#)

DOCUMENTED. This index lists every newspaper cutting, press extract and related published record held by the Wiki. Each item has its own evidence page with a unique catalogue number. Each page gives the evidence image (or says where it is held), a verbatim transcript, a neutral description, provenance with archive links, and a separate interpretation that is open to challenge. The earlier single page of transcripts, [Press Archive — Newspaper Transcripts](#), remains as a reading copy and cross-check against the family’s research file.

2.1 Rule for citing the press

Any page on this site that relies on a newspaper item links to that item's page below, not to the transcripts page. A press report is evidence of what a newspaper said at the time. It is not proof that every statement in it is true.
