2026-10-21 21:01 (20:01 UTC)	721 pages site-wide (every page with a table; list in the health pass backups folder health-tables-20261021) (7 pages skipped: being edited at the time)	Tables wider than a phone screen — the 8-column “Page version & change log” table on most pages, plus a few wide content tables — made the whole page scroll sideways at 390px (e.g. the LCC forensic review read 1,345px wide).	Each table is wrapped in a scroll container (<div class=“ghf-table-scroll” style=“overflow:auto;max-width:100%”>), so the page stays phone-width and the table scrolls within itself. Separately, four links to the “New archival leads (Bute archive 1793...)” page that pointed at a slug with “deeds” in it were corrected on Bute Estate (16), Land Registry Titles (26) and the Lakeside & Llandough Development Company review (3113). A full backup of every page was taken before each edit.	Site health pass, 21 Oct 2026. Presentation only — no wording, evidence or status changed. The theme stylesheet is a paid feature, so the fix lives in page content.

2026-10-19	Front-page title-chain tube map	On mobile, station captions could extend off-screen or become too narrow; explanatory panels could be painted under later stations; vertical pipe names looked like a second set of boxed station labels.	Constrained station captions to max-width:min(48vw,230px) and lowered station/summary stacking order. Repositioned all 20 explanatory panels as fixed overlays centred within the viewport (92vw, capped at 520px, 78vh maximum with internal scrolling) with a small close instruction. Restyled seven rotated pipe names as plain colour-matched text without border, background, padding box or shadow. Retained the full-width, left-aligned map and clipped horizontal map area.	Re-read the published custom <code>pub/archivist//title-lines</code> component: 20 station details, 20 viewport-fixed panels, seven unboxed rotated names, 48vw/230px station bounds, fixed-panel viewport max-width and height/scroll constraints are present. Active front-page template still calls this component. Final device-browser rendering cannot be visually confirmed from this session.
2026-10-19	Front-page title-chain tube map	Initial map legend could crowd the first chronological stations on narrow screens because several legend explanations were long. The date rails started near the legend and risked visually overlapping it.	Compacted the seven-entry legend to short line identities and one-phrase meanings, then moved the timeline stations and rail geometry down to create a clear header-to-map separation. Kept the 100vw/left:0px/no-horizontal-overflow root, seven color identities, 20 clickable event stations, true Williams route and dashed ghost continuation, 1955 daughter branches, and the solid centre-	Saved and re-read the active custom <code>pub/archivist//title-lines</code> component. 2026-10-19	Homepage title-lines / landing diagram	Previous map showed lines and labels but did not read as a coherent Tube map; the true Williams Parcel-A route, later synthetic candidate routes, and the final merger theory were visually insufficiently distinguished.	Rebuilt the active custom <code>pub/archivist//title-lines</code> part as an underground-style network with a seven-item legend, continuous Bute, Williams A, Parcel B, Forest, Council/VG41, house-and-garden/BP and proposed gold merger tracks. Added interchange stations at the 1877 fork, 1916 tenancy overlay, 1928 Williams transition, 1955 three-way branch and 1987 convergence; used a dashed grey Williams claim/occupation track after the proposed 1955 severance; retained 20 expandable event stations through 1988. Solid 1987 join is limited to the central A+B model; dashed outer links are labelled hypothesis pending plan verification.	Published custom template part re-read and checked: 20 expandable stations, seven legend entries, CSS-only rails (no SVG), width/max-width 100vw, left:0, zero margins and horizontal clipping. The active <code>front-page</code> template references <code>title-lines</code> . The wider inclusion of Forest and VG41 in the 1987 title remains an unproven reconstruction, not an established fact.

2026-10-19 02:03 BST	Front-page title-lines design	The map's event labels had persisted, but no colored vertical rails were visible. The previous template part used an SVG for the rails; WordPress removed that SVG when saving the component, leaving the labels floating without the network.	Replaced the SVG drawing with visible inline-CSS HTML rail elements: Bute root, reported 1877 A/B branching, a 1916 A+B tenancy crossbar, the faded original Parcel-A route, Parcel B, three post-1955 Parcel-A rails (A-North green, A-Centre red, A-South-East amber), and the 1987 centre-plus-B junction. Added colored elbow ticks for all 26 event labels and junction dots. Kept expandable source notes.	Verified by re-reading the published custom <code>pub/archivist//title-lines</code> component: it contains CSS-backed green, blue, amber and red rails, 26 elbow ticks, and all 26 expandable labels; no SVG is required. The active front-page template continues to call the custom title-lines part. This addresses the missing-line rendering fault; visual confirmation in an external browser remains unavailable here.

The custom <code>pub/archivist//front-page</code> template calls a separate <code>pub/archivist//title-lines</code> template part; that part still had a 680px width cap and a 90px text gutter.	Updated the actual custom <code>title-lines</code> template part referenced by the live front-page template. Replaced the narrow timeline with a viewport-width vertical rail map, branch elbows and 26 expandable event labels, including the 1877 A/B split, 1916 A+B tenancy, 1928 Williams route, 1938-39 WGR route, northern 1961 deed lead, 1970 VG41 route, 1982-83	User correction after the page-body edit failed to affect the live design. 2026-10-19 00:42	8 — Great House Farm landing page · 2612 — permissive-occupation claim	Landing page: chronology used a narrow vertical marker next to long explanatory text and centred the synthetic-Parcel-A theory on BP. Page 2612 grouped the 1959/1965 offers and lacked explicit 1961 woodland / 1970 VG41 rows and a segment crosswalk.	Landing now presents a full-width vertical tube-map with short year/parcel elbow labels that expand to source notes. It shows a single Bute root, the reported 1877 A/B split, the 1916 A+B tenancy conflict, the 1928 Williams “virtual freeholder” theory, Parcel B’s 1938 Bute→WGR and 1939 WGR tenancy route, and three alleged Parcel-A successor routes: Forest of Cardiff (upper/north), BP’s central house-and-garden registration (middle), and Llandough Council/VG41 (lower/south-east). It continues to the 1987 modelled A-Centre + B amalgamation. Added a May 1897 Marconi (Lavernock) context marker and an undated Peerless Jim barn-fight research lead. Page 2612 now separates 1959 and 1965, adds the 1961 and 1970 rows, and crosswalks A-North, A-Centre, A-South-East and Parcel B.	User direction, 19 Oct 2026. Linked leads: EV-0011, EV-0014, EV-0019, EV-0023, EV-0039, EV-0040, EV-0044, EV-0050 and EV-0078. The 1877 Bute-Thomas instrument remains unlocated; the separate 1877 Roath/Clyde Street lease is excluded. The tube map is a working reconstruction, not a surveyed plan or proof of title, fraud, or coordination. VG41 registration is not proof of council freehold; Forest of Cardiff’s later transfer/excision remains a title-plan check.

2026-10-18; time recorded by WordPress on save	2940 — Welsh Government/Cadw correspondence	Correspondence included the claim “falsely named Mrs Buckler” and “no window in which to object.”	Original correspondence retained as a historical record, with an editorial correction: Mary used both Williams and Buckler; application dates were 30 Nov 1982 and 23 Feb 1983; notice/receipt remains open pending the HMLR file items dated 8 and 12 Apr 1983. Editorial warning says the 185-acre Cowbridge-area farm sold to L. D. Thomas is a different property; keep the original request/transcript intact, but do not treat it as a transaction involving Tŷ Mawr without primary proof.	Preserves correspondence integrity and corrects the research interpretation; also flags DSA/12/5400 as a different J. Williams.

2026-10-18; time recorded by WordPress on save	1809 — GHF-E140 ; 767 — Scrutiny & Accountability	E140 title foregrounded the hearing date without distinguishing the judgment date; page 767 already stated both dates correctly.	E140 title now says “hearing 10 July 1986; judgment 24 July 1986”; page 767 was reviewed and already correctly distinguished hearing from judgment.	Court of Appeal judgment and South Wales Echo report (25 July 1986, p. 3). Page 767 was verified, not changed in this pass.
2026-10-18; time recorded by WordPress on save	3356 — Three Parts of Parcel A	Wording risked making the separate interval comparisons sound like one uniform “12-year gap”.	Now distinguishes about 11 years (1958/59–1970), about 13 years (1969–1983), and the separate approximate 1949–61 sequence pending exact source dates.	Calendar-year reconstruction, explicitly labelled as a family reconstruction and not evidence of a repeating scheme.

Removed generated page-local guest-book section(s); replaced repeated theory prose with a link; changed page 2612 to distinguish the separate monthly grazing let from the earlier whole-farm tenancy.	Underlying scan and correspondence preserved. The 1939 plan does not, by itself, decide wider tenancy scope or root title.

2026-10-18; time recorded by WordPress on save	2934 ; 2933	Old correspondence/request text referred to a Cowbridge/Llandough “Great House Farm” auction without adequately distinguishing property identity.	Added a warning identifying the reported 185-acre Cowbridge-area farm sold to L. D. Thomas as a different property; flagged DSA/12/5400 as a different J. Williams.	Historical message text preserved. Warning is an identity caution pending inspection of original sale particulars and plan.
2026-10-18; time recorded by WordPress on save	3714 — Response Friction Score	Earlier text included an insulting informal label for the score.	Published description now uses the neutral RFS name and states that the method rates individual messages, not a person or institution.	Observed response criteria and limits remain visible; score is not evidence of misconduct.
2026-10-18; time recorded by WordPress on save	3357 — Draft Email	Unissued draft emails to SFO/NCA/Home Office/Attorney General were publicly viewable.	Set page status to private; retained the page and content without public display.	Made non-public pending evidence assessment; no draft was deleted.
2026-10-18; multiple saves	Generated guest-book footer cleanup: 3348, 3334, 3295, 3290, 3234, 3191, 3140, 3123–3110, 3109–3101, 2917, 2631, 2627, 2616, 2613, 1830, 1829–1810.	Repeated generated guest-book sections and, on some pages, duplicate block-level agent logs appeared at the bottom of pages.	Removed those generated footer/log blocks from the listed pages; substantive page text, exhibits, scans and attached evidence were not intentionally rewritten by this cleanup.	Those page revisions and the cleanup are recorded here rather than in page-local guest books. Pages were not each independently checked in a public browser after save.
2026-10-18; multiple saves	Repeated Cedwyn cross-reference paragraphs: 3103, 3102, 3101, 2627, 2623, 2613, 2607, 2599, 1698, 1475, 1422, 1416, 1383, 1191 and 8.	Some records included a repeated lengthy Cedwyn Estate theory cross-reference.	Replaced the repeated paragraph with a link to the main Cedwyn Estate Working Theory, distinguishing the theory from what each particular record proves.	Core record material remains; cross-references now direct readers to the central argument rather than repeat it.

2026-10-18; multiple saves	3356 — Three Parts of Parcel A ; 2612 — Permissive-occupation claim ; 3358 — Three-part Parcel A assessment ; 1381 — Counter-Evidence	These pages contained a dated one-off local “change record / guest book” or page-local agent log block.	Removed the local guest-book/log block and replaced the page-local record with a link to this central change log. The substantive page analysis remains.	Centralised future editorial history as required. This entry records the consolidation; it does not claim that a removed local note was evidence of any underlying title fact.
2026-10-18; time recorded by WordPress on save	3358 — Three-part Parcel A assessment	Repeated wording described the timing comparisons as “about 12, about 11 and about 13 years”, risking a false single twelve-year pattern.	Now distinguishes the approximately 11-year and 13-year later intervals from the separate approximate 1949–61 sequence, which remains dependent on exact primary-source dates and parcel identity.	Analytical chronology only; no inference of coordination or misconduct is made from timing alone.
2026-10-18; time recorded by WordPress on save	1020 — Site Agent Operating Rules ; 3918 — Editing Protocol ; 3290 — Site Plan ; 3334 — Brand & Developer Guidelines	Instructions required per-page guest-book/version footers and a second master log; two specification pages also carried local version-log tables.	Rules now direct all material edits to the central Master Change Log with before/after lines. Removed the separate version tables on 3290 and 3334 and replaced them with a link to the central log.	One change-history route is now specified in both operating rules and editing protocol. Evidence content and page purpose were retained.

Added “Kissed Frogs” screening register with dispositions for the Cardiff 1877 leases, Cowbridge-area name traps, stale imported snapshot, unsupported app assertions and rental-heading inference; separately retained relevant survey, rate-book, title-file and council-minute leads.	Evidence-screening workflow; distinguishes title, fraud/concealment and public-authority questions; no allegation treated as proved by repetition.
2026-10-18 22:32 BST	5312 Excluded: not our farm	Wrong-geography items listed without a cross-link to the broader screening method.	Added scope explanation and link to the central Kissed Frogs register; evidence retained and exclusions described as property-identity findings, not accusations.	Parish/location controls; original references preserved.
2026-10-18 22:32 BST	1108 Great House Farm — Name & Location Variations	Name variants did not have an explicit statement that D 219’s 107-acre Cydfin/Ty Mawr entry and 166-acre Llandough Farm entry are separate holdings. Added date- provenance control; records the known date-matched Roath lease as a different instrument; retains the farm document as reported and unlocated.	Prevented overclaim; the 99- year Roath term from 1877 does not reach 1987.
2026-10-18 22:32 BST	1784 GHF-E115 — Bute-Thomas arrangement	The missing Bute- Thomas instrument could be read alongside the Cardiff leases without a direct source- identity warning.	Added an addendum distinguishing the reported farm/quarry arrangement from both Cardiff leases and keeping sale/quarry- lease/conditional- transfer terms unresolved until authenticated.	Preserves the core title lead without treating unlocated wording as a proved term.
2026-10-18 22:36 BST	4517 Evidence Register	No direct pointer at the entry point to the screening decisions for false matches, duplicated sources and context- only leads.	Added a prominent link and short instruction to consult the Kissed Frogs screening register before reusing candidate sources.	Improves evidence navigation; exclusions and original materials remain preserved.
2026-10-18 22:36 BST	3921 Start Here	No concise entry- point warning against conflating Cardiff leases, similar farm names or unsupported app assertions with proof of title/fraud.	Added link to the screening register and the official D 219 catalogue distinction between 107-acre Cydfin/Ty Mawr and 166-acre Llandough Farm.	NLW D 219 catalogue; keeps title, fraud/concealment and public-authority tracks separate.
